

An internet business that gives us financial freedom

It's been very peaceful on our lake the past two days. Not to many have been on the water, but it's the end of August and the past few nights have been around fifty degrees or so. That only says one thing to us, get the poles ready, it's our final week here, the water is cooling down lets go Walleye fishing. We love to be able to bring home fresh fish.

We have gotten our lifestyle for the summer right where we want it. We love the lakes and the forests, and spend our summers mostly on the water. We park the boat off sandy areas when it's hot and hang in the cool waters, we hide away in spots were the water is clear as can be. We don't waste time, we know these long summer days will slip away.

In a little over a year and a half, we have been very successful in our internet business. We have time to do what ever we want and that's exactly what we were aiming for. The right minds, the marketing skills, and a home based business we can take anywhere. One that keeps evolving with the effort we put into it, and just keeps getting better.

With things looking up for catching some fish, Deb will finish up with our business for the day, and I'll get the fishing poles and everything else on the boat, then run down the road for bait. She loves to make sure everyone gets an email with their questions answered about this affiliate program. We usually catch more late morning or so anyway.

It was good timing for us to get going in this business, we had been doing some marketing online, and we were ready for a business that could really propel us to where we are at now. What was great was, the live internet training they have weekly. That gets you going quickly and in our online back office there is so many more tools that work great.

The first couple of weeks we were here, we were trying not to think to much, it was time for a break. As time went on, the morning ideas starting flowing again and we had to start taking notes so we wouldn't lose these thoughts. This business really sparks the creative part of us, and we know there is so many more ways to make money with this business.

When you have an internet business that works and you can work at home, or from where ever you want, you take it seriously. We walked right into this knowing it was the best on the web. We new from experience there wasn't much else out there that we could really build upon, and would create this financial freedom we enjoy right now.

But know it's time to get some fishing in. The water has a perfect chop, and with pink jig heads, and beetle spins, we'll try and find those late summer Walleyes. The lake is a little choppy, but that should work in our favor on the rocky shoreline we always do well on. Hopefully the whole week will be this good, we'll get everyone together for a fish fry.
